# Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

## Pans + Bidets

**Rimless**  
Rimless flushing, hygienic and easy to clean.

**Comfort Height**  
The comfort height option sits several centimetres taller than standard WCs.

**Short Projection**  
Space saving short projection pans, ideal for small washrooms.

**Easy Install**  
Our WC Pillar Units are designed for easy maintenance and installation.

**Contactless Controls**  
Infrared switch allows control with the wave of your hand.

**Full Flush Volume**  
The total volume of water discharged from the flushing system during a flush cycle.

**Dual Flush Volume**  
The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

**Eco Dual Flush Volume**  
A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

**Air Gap**  
Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

**Right Hand Flush**  
Ergonomically positioned cistern handle for convenient flushing.

## Toilet Seats

**Quick Release**  
Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

**Top Fix Hinges**  
Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

**Soft Close**  
The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

Toilet Seats  
Page 120

## Furniture

**Soft Close Drawers**  
Soft close drawers used for a smooth, quiet closing action.

## Pillar Cistern Units

**Touch Controls**  
Multi function touch control with on/off functionality.

## Baths

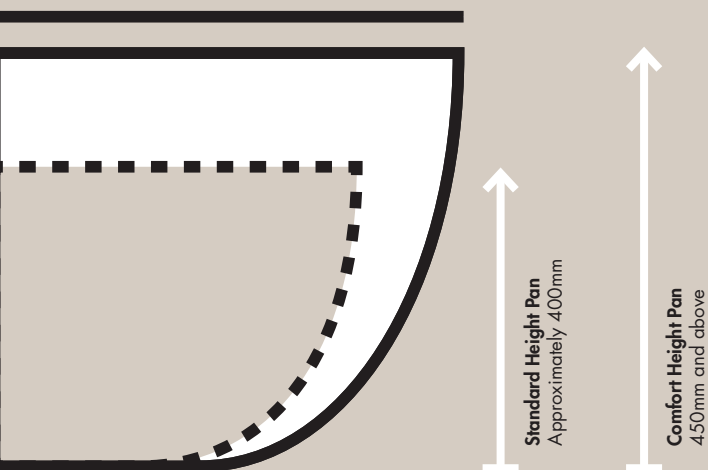

**Water Capacity**  
Total number of Litres the bath can hold safely.

# Comfort Height Pan. Short Projection Pan. What's the difference?

## Comfort Height Pans

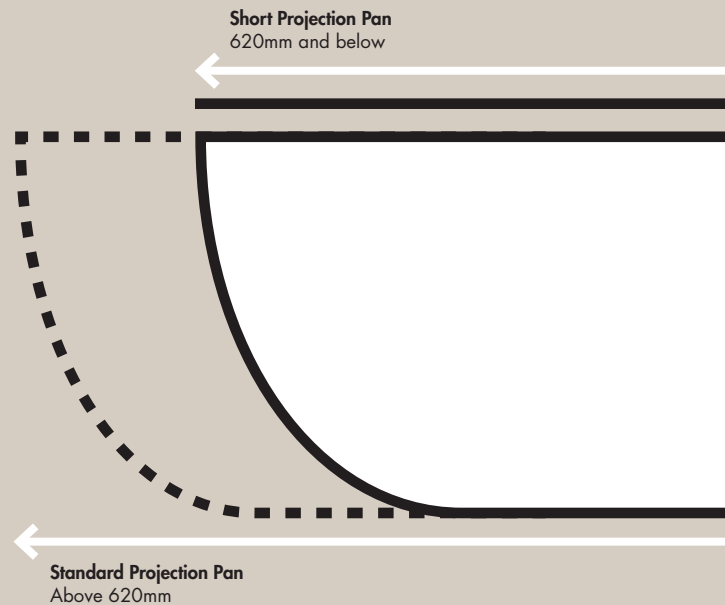

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

## Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm\* and below (standard projection pans are typically above 620mm). A short projection pan is ideal for a small bathroom or cloakroom suite.

*\*620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 69 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.
